

For Immediate Release, August 31, 2016

OPEN HOUSE – PHOENIX, ARIZONA

Pet All's Phoenix facility will host an open house featuring the Phoenix 10-155F blow molder and 1-color screen printer for plastic bottles.

The Phoenix model 10-155F, shown above, is a state of the art extrusion blow molder with production scope as follows:

- Platen size WxH – 480 x 445 mm
- Machine Carriage Stroke – 650 mm
- Clamp Tonnage – 127 Kn (12 + Tons)
- Standard extrusion capacity – 160 kg/h on 90 mm extruder, 185 kg/h on high output extruder
- Open Close Mold Stroke – 350 mm

The machine is linear carriage style with bobbing head. In practice, the machine will accommodate:

- 2 Parisons x 220 mm centers
- 3 Parisons x 125 mm centers
- 4 Parisons x 100 mm centers
- 5 Parisons x 80 mm centers
- 6 Parisons x 70 mm centers

The Phoenix series is unique in that it was designed in North America for the US market and is integrated and supported from our Phoenix, Arizona and Toronto, Canada centers.
